# CITRUS GANG

## CITRUS GANG

This colorful cocktail of citrus fruits overflows with freshness at first sight. The initially vigorous and very strong taste of fresh citrus changes gradually and reveals artfully hidden sweet tones. Distinct ingredients mingle excellently and the result is a balanced silken taste emphasized with a mild aroma. The cocktail retains its sensitive full taste and will not release you from the grip of the citrus gang before the last puff.

OUR TIP: We recommend you to try also the alcohol version of this cocktail with the RUM. This smooth addition makes the resulting taste round beautifully and adds juiciness to smoke.

**TOBACCO MIXTURE:** Lemon, Orange, Mint

## VANILLA SKY

### VANILLA SKY

The main ingredient of this delicious cocktail is the intoxicating taste of vanilla. The intensive sweetness is reduced with the juicy bitterness of sour cherry and fresh mint adds lightness to the cocktail. Vanilla pods and cocktail cherries support the intensity of the tobacco mix, merge and form a vivid and very concrete taste. The both light and rich smoke will carry you from reality to the Vanilla Sky.

OUR TIP: We recommend you to try also the alcohol version of this cocktail with the VANILLA VODKA. The resulting taste will be even more delicate and creamy.
